

## Data Backend and Services Developer (w/d/m)

any experience level: Working Student, Junior, or Senior

Are you passionate about designing and implementing state-of-the-art scalable services? Do you thrive in creating robust, cloud-native solutions? Join our team as a Python Backend/Services Developer and play a key role in building a global AI and data analytics backend, the foundation of our services for customers.

Email your experience and interests to [job@o2o-insights.com](mailto:job@o2o-insights.com).

At O2O Insights, an international startup pushing the boundaries of AI to bridge the gap between online and offline worlds. We customize our technology to meet our clients' needs, driving their global business success.

Join our team in **Göppingen/Stuttgart** or **Mallorca/Spain** and experience how your code powers global business success and growth!

### Key Responsibilities:

- Design and implement scalable and redundant services
- Develop and maintain a global AI and data analytics backend at scale
- Ensure our cloud-native solutions are purpose-built from ground up and scale

### Qualifications:

- Experience in modern backend technology, Python and relevant tooling is a plus
- Familiar with cloud concepts and cloud infrastructure, e.g., MS Azure
- Proven track record in AI / data analytics backed development is a strong plus

### What We Offer:

- Opportunities for professional growth and development
- Work in a collaborative, supportive, and geek-friendly team environment
- Work from abroad: up to 2 months in Mallorca/Spain

**How to apply:** If you are excited about the opportunity to work with us, we would love to hear from you! Please send your resume and/or cover letter to [job@o2o-insights.com](mailto:job@o2o-insights.com)
